

In current year from spring in Imereti Region's municipalities is implementing project ``Platform of partnership with Georgia``, which main goal is to develop of local business sector and to create business relationship with Italy. Project is implementing by ``Local Democracy Agency``, Monfalcone Municipality, ``Association of Local Democracy Agencies`` and Kutaisi Self Government and Project is financed by Region Friuli Venezia Giulia.

In first phase of implementation of project, to research problems of local business sector project experts had meetings with business and state sectors representatives in 11 municipalities of Imereti region and in Kutaisi, also experts created data about business sectors of Imereti Region. According to collected information were made SWOT analyze of each municipalites and main business sectors.

According to research results was created Business education program wich includes trening modules and publications. For owners, managers, employees, youth and women were made business trenings.

During the project implementation period was established Business Information Centre which is helping and counsulting persons who are working or have interest in business Sector.

Next step of project will be to create data base of entrepreneurs proposals which will be used during the business relationship with italian business sectors representatives. Also by project experts was created strategic development plan of local business sphere which implementation will help to SMEs to develop their businesses.
